WHICH IS BETTER:

A HARD COPY OF THE BIBLE OR A DEVICE?

1. A Bible is solely used for studying God's Word. A phone is used for texting, emails, Facebook, and many other uses. When we open the Bible, we are intent on studying God's Word.
2. When you read your Bible, there are no distractions. When you're on a device, you have drop down notifications, texts, Facebook friend requests. There are all kinds of distractions.
3. A hard copy of the Bible is a physical reminder of God's Word. Your phone is used for other tasks.
4. If we don't use our Bibles, eventually we will forget the various locations of the books in the Bible. A device doesn't require any memorization. Just click. We want to be proficient when it comes to our Bibles.
5. Carrying your Bible shows that you are a believer. People will know that you're a Christian. If we carry our phone only, no one will know if we are a believer or not. If you are on a plane or train, people will know you are a Christian.

The purpose of this article is not to condemn using a device in place of a Bible, but rather to show which is better and why. See 2 Timothy 2:15.

God bless,

Ray
